SLAUGHTER OF ANIMALS ACT, 1933.

Two applications were submitted for renewal of slaughterman's licence under the above Act. In both cases the licences were renewed.

PUBLIC HEALTH MEAT REGULATIONS, 1924.

During the year 388 visits were made to butchers' shops and premises where food is prepared or exposed for sale. Generally speaking the premises are clean and well kept and give little cause for complaint.

The under-mentioned animals were killed and examined as to their fitness for food.

PETROLEUM (REGULATION) ACTS.

Investigations were made into eighteen new cases regarding application for a licence to store petroleum spirit.

In each case a licence was granted.

The number of licences issued during the year is 48, and the licence fees £27/10/-.

HOUSE REFUSE.

The collection and disposal of house refuse is carried out by the Council workmen, motors and horse vehicles being employed.

Dry refuse is disposed of by filling up low-lying land, whilst wet refuse is taken to the depot, mixed with fine ashes and sold to farmers. The amount of refuse removed during the year was 5,427 loads of dry refuse and 5,490 loads of wet refuse.

There are still approximately 2,771 pail closets and 2,240 dry ash pits in the district. During the year 15 pail closets have been converted and four demolished making a reduction of 19 pail closets for the year. 14 dry ash pits have been replaced with 21 movable receptacles.

The work of converting the pail closets to the water carriage system should be commenced as early as possible, in order to get rid of the present expensive and obsolete scavenging system.

SALVAGE.

The collection of waste material is carried out daily by the workmen in the Sanitary Department and in addition one day per week is allotted for special collection by our motor wagon. During the year the undermentioned waste material has been collected and disposed of.
